As a result, we may be required to invest significant resources in developing new brands or names, which could materially and adversely affect our business, financial condition, results of operations and prospects. In addition, we have in the past also entered into transactions with other related parties. For further details, kindly refer to the chapter titled as '*Financial Statements*' beginning on page 71 in this Draft Letter of Offer.

While we believe that all our related party transactions have been conducted on an arm's length basis, we cannot assure you that we may not have achieved more favourable terms had such transactions been entered into with

unrelated parties. There can be no assurance that such transactions, individually or taken together, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future.

11. *There is no major business risk management and the operations can be subject to relevant governmental and human resource risk management*

The Company is into diversified business operations and does not have any significant business activities, hence the business risk of the Company is at the minimal level. Hence, except for the relevant government policies, human resource risk, and relevant business undertaken by the Company, there are no other major risks envisaged by the Company.

12. *Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.*

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements. Our business is working capital intensive and we are required to obtain consents from certain of our lenders prior to the declaration of dividend as per the terms of the agreements executed with them. We may be unable to pay dividends in the near or medium term, and our future dividend policy will depend on our capital requirements and financing arrangements in respect of our operations, financial condition and results of operations. For further details, kindly refer to the chapter titled as '*Financial Statements*' beginning on page 71 in this Draft Letter of Offer.

13. *The deployment of funds is entirely at our discretion and as per the details mentioned in the chapter titled 'Objects of the Issue'.*

As the Rights Issue size shall be less than ₹10,000 Lakhs, under Regulation 41 of the SEBI (ICDR) Regulations it is not required that a monitoring agency be appointed by our Company, for overseeing the deployment and utilisation of funds raised through this Issue. Therefore, the deployment of the funds towards the Objects of this Issue is entirely at the discretion of our Board of Directors and is not subject to monitoring by external independent agency. Our Board of Directors along with the Rights Issue Committee will monitor the utilisation of Issue proceeds and shall have the flexibility in applying the proceeds of this Issue. However, the management of our Company shall not have the power to alter the objects of this Issue except with the approval of the Shareholders of the Company given by way of a special resolution in a general meeting, in the manner specified in Section 27 of the Companies Act, 2013. Additionally, the dissenting shareholders being those shareholders who have not agreed to the proposal to vary the objects of this Issue, our Promoter shall provide them with an opportunity to exit at such price, and in such manner and conditions as may be specified by the SEBI, in respect to the same.

For further details, please refer to the chapter titled '*Objects of the Issue*' beginning on page 50 of this Draft Letter of Offer.

14. *As the securities of our Company are listed on Stock Exchanges in India, our Company is subject to certain obligations and reporting requirements under the SEBI (LODR) Regulations and comply with other SEBI regulations. Any non-compliances/delay in complying with such obligations and reporting requirements may render us liable to prosecution and/or penalties.*

The Equity Shares of our Company are listed on BSE, therefore we are subject to the obligations and reporting requirements prescribed under the SEBI (LODR) Regulations and comply with other applicable Regulations framed by SEBI. Our Company endeavours to comply with all such obligations/reporting requirements, however there have been instances in the past of non-disclosures/delayed disclosures under SEBI Listing Regulations such as delayed filings under 23 (9) and Regulation 30 of SEBI (LODR) Regulations and other delayed compliance under Regulation 74(5) of the Securities and Exchange Board of India (Depositories and Participants) Regulations, 2018. Such non-compliance which might have been committed by us, may result into Stock Exchanges and/or SEBI imposing penalties, issuing warnings and show cause notices against us and/or taking actions as provided under the SEBI Act and Rules and Regulations made there under and applicable SEBI Circulars. Any such adverse regulatory action or

development could affect our business reputation, divert management attention, and result in a material adverse effect on our business prospects and financial performance and on the trading price of the Equity Shares.

15. *Our Company requires significant amount of working capital for a continuing growth. Our inability to meet our working capital requirements may adversely affect our results of operations.*

Our business requires a significant amount of working capital. Any delay in processing our payments by our customers may increase our working capital requirement. Further, if a customer defaults in making payment for the services provided by us, on which we have devoted significant resources, it could affect our profitability and liquidity and decrease the capital reserves that are otherwise available for other uses. We may file a claim for compensation of the loss that we incurred pursuant to such defaults but settlement of disputes generally takes time and financial and other resources, and the outcome is often uncertain. In general, we take provisions for bad debts, including those arising from such defaults based primarily on ageing and other factors such as special circumstances relating to special customers. There can be no assurance that such payments will be remitted by our clients to us on a timely basis or that we will be able to effectively manage the level of bad debt arising from defaults. All of these factors may result, or have resulted, in increase in the number of receivables and short-term borrowings. Continued increase in working capital requirements may adversely affect our financial condition and results of operations. We may also have large cash flows, including among others, litigation costs, adverse political conditions, foreign exchange risks and liability claims. Moreover, we may require additional finance facility in the future to satisfy our working capital needs.

16. *We require certain approvals and licenses in the ordinary course of business, and any failure to obtain or retain such approvals in a timely manner, or comply with applicable laws, may materially and adversely affect our business, financial condition, results of operations and prospects.*

We require certain approvals, licenses, registrations and permissions for operating our business in India, if we fail to apply, obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, our business may be adversely affected.

In relation to our facility and the Objects of the Issue, we are required to maintain and avail certain approvals and licenses. We cannot assure you that we will receive all the required certifications or that we will be able to maintain the validity of the quality certifications that have previously been awarded.

Further, government approvals and licenses are subject to numerous conditions, of which some may be onerous and may require us to undertake substantial compliance-related expenditure. Changes in laws and regulations, more stringent enforcement or alternative interpretation of existing laws and regulations in geographies in which we currently operate may make compliance with all applicable laws and regulations more challenging and could affect us adversely by tightening restrictions, reducing our freedom to do business, increasing our costs of doing business, or reducing our profitability.

Failure to comply with applicable laws or regulations, obtain and maintain any licenses, permits and approvals necessary to operate our business or non-compliance with any conditions imposed thereunder can lead to civil, administrative or criminal penalties, including but not limited to fines or the revocation of permits and licenses that may be necessary for our business activities.

17. *We have not commissioned an industry report for the disclosures made in the section titled 'Industry Overview' and made disclosures on the basis of the data available on the internet and such data has not been independently verified by us.*

We have neither commissioned an industry report, nor sought consent from the quoted website source for the disclosures which need to be made in the section titled 'Industry Overview' of this Draft Letter of Offer. We have made disclosures in the said chapter on the basis of the relevant industry related data available online for which relevant consents have not been obtained. We have not independently verified such data. We cannot assure you that any assumptions made are correct or will not change and, accordingly, our position in the market may differ from that presented in this Draft Letter of Offer. Further, the industry data mentioned in this Draft Letter of Offer or sources from which the data has been collected are not recommendations to invest in our Company. Accordingly, investors should read the industry related disclosure in this Draft Letter of Offer in this context.

ISSUE SPECIFIC FACTORS

18. *Investment in Right Shares is exposed to certain risks. From the Call Record Date for each Call prior to the final Call, the trading of the Right Shares would be suspended for an applicable period under the applicable law. Further, the Right Shares will not be traded with effect from the Call Record Date for the final call fixed for the determination of the Investors liable to pay Call Monies, as determined by our Board at its sole discretion, from time to time. The holders of the Right Shares will not be able to trade in these securities till they are credited to the holders' account as fully paid-up. Further, until the subsistence of Right Shares, we may not be able to undertake certain forms of equity capital raising.*

The Issue Price is ₹[●] (Rupees [●] Only) per Rights Equity Share. On Application, Investors will have to pay ₹[●] (Rupees [●] Only) ([●]% ([●] percent) of the Issue Price) per Rights Equity Share. The balance amount will be payable by the Rights Equity Shareholders on subsequent Calls of ₹[●] (Rupees [●] Only) per Rights Equity Share, after payment of the Application Money.

The Right Shares offered under this Issue will be listed under a separate ISIN. An active market for trading may not develop for the Right Shares. This may affect the liquidity of the Right Shares and restrict your ability to sell them.

If our Company does not receive the Call Money as per the timelines stipulated in the Call notice, unless extended by our Board, the defaulting Rights Equity Shareholders will be liable to pay interest as may be fixed by our Board unless waived or our Company may forfeit the Right Shares, in accordance with the Companies Act, 2013 and our Articles of Association. In case our Company declares any dividend, Rights Equity Shareholders are only entitled to dividend in proportion to the amount paid-up, and the voting rights (exercisable on a poll) by Investors shall also be proportional to such investor's share of the paid-up equity capital of our Company. Therefore, the rights of holders of the Right Shares will not be *pari-passu* with the rights of the other shareholders of our Company in case of non-payment of Call Monies.

The ISIN representing partly paid-up Right Shares will be terminated after the Call Record Date for the final Call. On payment of the final Call in respect of the partly paid-up Right Shares, such partly paid-up Right Shares would be converted into fully paid-up Equity Shares and shall be listed and identified under the existing ISIN for our fully paid-up Equity Shares. Our Company would fix a Call Record Date for the purpose of determining the list of allottees to whom the notice for the Final Call would be sent. From the Call Record Date for each Call prior to the Final Call, the trading of the Right Shares would be suspended for an applicable period under the applicable law. Further, with effect from the Call Record Date, trading in the partly paid-up Right Shares for which final Call have been made, would be suspended prior to the Call Record Date, for such period as may be applicable under the rules and regulations. Furthermore, the holders of the partly paid-up Right Shares will not be able to trade in these Equity Shares until they are credited to the holders' account as fully paid-up Right Shares. Similarly, for an applicable period, from the Call Record Date for each Call, the trading of the Right Shares would be suspended under the applicable law. Further, there is little history of trading of partly paid-up shares in India and therefore there could be less liquidity in this segment, which may cause the price of the Right Shares to fall and may limit ability of Investors to sell the Right Shares. There may also be a risk of the Right Shares not forming part of the index.

Further, until the subsistence of Right Shares, we cannot undertake further rights issues, further public offers or bonus issues. In terms of Regulation 62 and Regulation 104 of the SEBI (ICDR) Regulations, an issuer making a rights issue or further public offer is required to ensure that all its existing partly paid-up equity shares have either been fully paid-up or have been forfeited. Additionally, a bonus issue will not be permitted under law till the subsistence of partly paid-up equity shares in terms of Regulation 293 of the SEBI (ICDR) Regulations.

19. *Our Company will not distribute the Letter of Offer, the Abridged Letter of Offer, Rights Entitlement Letter and Application Form to certain overseas Shareholders who have not provided an address in India for service of documents.*

Our Company will dispatch the Letter of Offer, the Abridged Letter of Offer, Rights Entitlement Letter and Application Form (the '*Offering Materials*') to such shareholders who have provided an address in India for the service of documents. The Offering Materials will not be distributed to addresses outside India on account of

restrictions that apply to the circulation of such materials in various overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e-mail. Presently, there is a lack of clarity under the Companies Act, 2013, and the rules thereunder, with respect to the distribution of Offering Materials to retail individual shareholders in overseas jurisdictions where such distribution may be prohibited under applicable laws of such jurisdictions.

20. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renounees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renounees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renounee will not be able to apply in this Issue with respect to such Rights Entitlements.

21. *Investors shall not have the option to receive Right Shares in physical form.*

In accordance with the provisions of Regulation 77A of the SEBI (ICDR) Regulations read with SEBI Rights Issue Circular, the credit of Rights Entitlement and Allotment of Right Shares shall be made in dematerialised form only. Investors will not have the option of getting the allotment of Equity Shares in physical form.

22. *SEBI has recently, by way of Rights Issue Circulars streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in this Draft Letter of Offer.*

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI Rights Issue Circulars and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see '*Terms of the Issue*' on page 128 of this Draft Letter of Offer.

In accordance with Regulation 77A of the SEBI (ICDR) Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Right Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account opened by our Company, for the Eligible Shareholders which would comprise Rights Entitlements relating to:

- (a) Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI (LODR) Regulations; or
- (b) Equity Shares held in the account of IEPF authority; or
- (c) The demat accounts of the Eligible Equity Shareholder which are frozen or suspended for debit or credit or details of which are unavailable with our Company or with the Registrar on the Record Date; or
- (d) Credit of the Rights Entitlements returned/reversed/failed; or
- (e) Equity Shares held by Eligible Equity Shareholders holding Equity Shares in the physical form on the Record Date the details of demat accounts are not provided by Eligible Equity Shareholders to our Company or Registrar; or
- (f) The ownership of the Equity Shares currently under dispute, including any court proceedings.

23. *The R-WAP payment mechanism facility proposed to be used for this Issue may be exposed to risks, including risks associated with payment gateways.*

In accordance with SEBI Rights Issue Circulars, a separate R-WAP facility accessible at www.linkintime.co.in, has been instituted for making an Application in this Issue by resident Investors (only in the event such Investors are not able to utilize the ASBA facility for making an Application despite their best efforts). Further, R-WAP is only an additional option and not a replacement of the ASBA process. On R-WAP, the resident Investors can access and fill the Application Form in electronic mode and make online payment using the internet banking or UPI facility from their own bank account thereat. For details, see the paragraph titled '*Making of an Application through the Registrar's Web-based Application Platform ('R-WAP') process*' under the section titled '*Terms of the Issue*' on page 128 of this Draft Letter of Offer. Such payment gateways and mechanisms are faced with risks such as:

- (a) Keeping information technology systems aligned and up to date with the rapidly evolving technology in the payment services industries;
- (b) Scaling up technology infrastructure to meet requirements of growing volumes;
- (c) Applying risk management policies effectively to such payment mechanisms;
- (d) Keeping users' data safe and free from security breaches; and
- (e) Effectively managing payment solutions logistics and technology infrastructure.

Further, R-WAP is a new facility which has been instituted due to challenges arising out of the COVID-19 pandemic. We cannot assure you that R-WAP will not suffer from any unanticipated system failure or breakdown or delay, including failure on part of the payment gateway, and therefore, your Application may not be completed or may be rejected. These risks are indicative and any failure to manage them effectively can impair the efficacy and functioning of the payment mechanism for this Issue. Since Application process through R-WAP is different from the ASBA process, there can be no assurance that investors will not find difficulties in accessing and using the R-WAP.

24. *The entitlement of Equity Shares to be allotted to investors applying for Allotment in physical form, will be kept in abeyance.*

In accordance with the SEBI (ICDR) Regulations, the option to receive the Right Shares in physical form will not be available after a period of six months from the date of coming into force of the SEBI (ICDR) Regulations, i.e., May 10, 2019. Since, the Right Shares offered pursuant to this Issue will be Allotted only after May 10, 2019, the entitlement of Right Shares to be Allotted to the Applicants who have applied for Allotment of the Right Shares in physical form will be kept in abeyance in electronic mode by our Company until the Applicants provide details of their demat account particulars to the Registrar. Pursuant to a press release dated December 03, 2018 issued by the SEBI, with effect from April 01, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares).

25. *The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form ('Physical Shareholder') may lapse in case they fail to furnish the details of their demat account to the Registrar.*

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has been recently introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated January 22, 2020 and May 6, 2020, read with SEBI circulars bearing reference numbers 'SEBI/HO/CFD/DIL1/CIR/P/2020/136 dated July 24, 2020', 'SEBI/HO/CFD/DIL1/CIR/P/2021/13 dated January 19, 2021', 'SEBI/HO/CFD/DIL2/CIR/P/2021/552 dated April 22, 2021', and 'SEBI/HO/CFD/DIL2/CIR/P/2021/633 dated October 01, 2021', and ensure completion of all the necessary steps in relation to providing/updating their demat account details in a timely manner. For further details, please refer to the section titled '*Terms of the Issue*' on page 128 of this Draft Letter of Offer. In accordance with

Regulation 77A of the SEBI (ICDR) Regulations read with the SEBI Rights Issue Circulars, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only.

26. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renounees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renounees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renounee will not be able to apply in this Issue with respect to such Rights Entitlements

27. *Any future issuance of Equity Shares, or convertible securities or other equity-linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our Promoter or members of our Promoter Group may adversely affect the trading price of the Equity Shares.*

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company; adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoter and Promoter Group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that our Promoter and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future.

28. *You may be subject to Indian taxes arising out of capital gains on the sale of the Right Shares and Rights Entitlement.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares of an Indian Company are generally taxable in India. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 (Twelve) months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares.

29. *You may not receive the Equity Shares that you subscribe in the Issue until 15 (Fifteen) days after the date on which this Issue closes, which will subject you to market risk.*

The Equity Shares that you subscribe in the Issue may not be credited to your demat account with the depository participants until approximately 15 (Fifteen) days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

30. *There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.*

In accordance with applicable laws and regulations and the requirements of the BSE Limited, in principle and final approvals for listing and trading of the Right Shares issued pursuant to this Issue will not be applied for or granted until after the Right Shares have been issued and allotted. Approval for listing and trading will require all the relevant documents authorising the issuance of Right Shares to be submitted. Accordingly, there could be a delay in listing the Right Shares on the BSE Limited. If there is a delay in obtaining such approvals, we may not be able to credit the Right Shares allotted to the Investors to their depository participant accounts or assure ownership of such Right Shares by the Investors in any manner promptly after the Issue Closing Date. In any such event, the ownership of the Investors over Right Shares allotted to them and their ability to dispose of any such Equity Shares may be restricted. For further information on issue procedure, please refer to the section titled '*Terms of the Issue*' beginning on page 128 of this Draft Letter of Offer.

31. *Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under the Companies Act, any Company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

32. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.*

On listing, our Equity Shares will be quoted in Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

33. *Sale of Equity Shares by our Promoters or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

34. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a Company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian Company than as shareholder of a corporation in another jurisdiction.

EXTERNAL RISK FACTORS

35. *The outbreak of Novel Coronavirus, or outbreak of any other severe communicable disease could have a potential impact on our business, financial condition and results of operations.*

The outbreak, or threatened outbreak, of any severe epidemic caused due to viruses (particularly the Novel Coronavirus) could materially adversely affect overall business sentiment and environment, particularly if such outbreak is inadequately controlled. The spread of any severe communicable disease may also adversely affect the operations of our customers and suppliers, which could adversely affect our business, financial condition and results of operations. The outbreak of Novel Coronavirus has resulted in authorities implementing several measures such as travel bans and restrictions, quarantines, shelter in place orders, and shutdowns. These measures have impacted and may further impact our workforce and operations, the operations of our customers, and those of our respective vendors and suppliers. There is currently substantial medical uncertainty regarding Novel Coronavirus. A rapid increase in severe cases and deaths where measures taken by governments fail or are lifted prematurely, may cause significant economic disruption in India and in the rest of the world. The scope, duration and frequency of such measures and the adverse effects of Novel Coronavirus remain uncertain and could be severe. Our ability to meet our ongoing disclosure obligations might be adversely affected, despite our best efforts. If any of our employees were suspected of contracting Novel Coronavirus or any other epidemic disease, this could require us to quarantine some or all of these employees or disinfect the facilities used for our operations. In addition, our revenue and profitability could be impacted to the extent that a natural disaster, health epidemic or other outbreak harms the Indian and global economy in general.

The outbreak has significantly increased economic uncertainty. It is likely that the current outbreak or continued spread of Novel Coronavirus will cause an economic slowdown and it is possible that it could cause a global recession. The spread of Novel Coronavirus has caused us to modify our business practices (including employee travel, employee work locations, and cancellation of physical participation in meetings, events and conferences), and we may take further actions as may be required by government authorities or that we determine are in the best interests of our employees, customers, partners, and suppliers. There is no certainty that such measures will be sufficient to mitigate the risks posed by the outbreak, and our ability to perform critical functions could be harmed.

The extent to which the Novel Coronavirus further impacts our results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions taken globally to contain the coronavirus or treat its impact, among others. Existing insurance coverage may not provide protection for all costs that may arise from all such possible events. We are still assessing our business operations and system supports and the impact Novel Coronavirus may have on our results and financial condition, but there can be no assurance that this analysis will enable us to avoid part or all of any impact from the spread of Novel Coronavirus or its consequences, including downturns in business sentiment generally or in our sector in particular. The degree to which Novel Coronavirus impacts our results will depend on future developments, which are highly uncertain and cannot be predicted, including, but not limited to, the duration and spread of the outbreak, its severity, the actions taken to contain the outbreak or treat its impact, and how quickly and to what extent normal economic and operating conditions can resume. The above risks can threaten the safe operation of our facilities and cause disruption of operational activities, environmental harm, and loss of life, injuries and impact the wellbeing of our people.

Further in case the lockdown is extended, it could result in muted economic growth or give rise to a recessionary economic scenario, in India and globally, which could adversely affect the business, prospects, results of operations and financial condition of our Company.

36. *Significant differences exist between Ind AS, Indian GAAP and other accounting principles, such as US GAAP and International Financial Reporting Standards ('IFRS'), which investors may be more familiar with and consider material to their assessment of our financial condition.*

The unaudited Financial Statements of our Company for the half-year ending September 30, 2021 and for Audited Financial Statements for the Financial Years ending March 31, 2021, March 31, 2020, and March 31, 2019, have been prepared in accordance with the Ind AS, the Companies Act, 2013.

We have not attempted to quantify the impact of US GAAP, IFRS or any other system of accounting principles on the financial data included in this Draft Letter of Offer, nor do we provide a reconciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. US GAAP and IFRS differ in significant respects from Ind AS and Indian GAAP. Accordingly, the degree to which the Financial Information included in this Draft Letter of Offer will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS, Indian GAAP and the SEBI (ICDR) Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Letter of Offer should accordingly be limited.

37. *Political, economic or other factors that are beyond our control may have adversely affect our business and results of operations.*

The Indian economy is influenced by economic developments in other countries. These factors could depress economic activity which could have an adverse effect on our business, financial condition and results of operations. Any financial disruption could have an adverse effect on our business and future financial performance.

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our services may be adversely affected by an economic downturn in domestic, regional and global economies.

Economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, and volatility in exchange currency rates, and annual rainfall which affects agricultural production.

Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

38. *A slowdown in economic growth in India could cause our business to suffer.*

We are incorporated in India, and all of our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. A slowdown in the Indian economy could adversely affect our business, including our ability to grow our assets, the quality of our assets, and our ability to implement our strategy.

Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- (a) Any increase in Indian interest rates or inflation;
- (b) Any scarcity of credit or other financing in India;
- (c) Prevailing income conditions among Indian consumers and Indian corporations;
- (d) Changes in India's tax, trade, fiscal or monetary policies;
- (e) Political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- (f) Prevailing regional or global economic conditions; and
- (g) Other significant regulatory or economic developments in or affecting India.

Any slowdown in the Indian economy or in the growth of the sectors we participate in or future volatility in global commodity prices could adversely affect our borrowers and contractual counterparties. This in turn could adversely affect our business and financial performance and the price of our Equity Shares.

39. *Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, prospects and results of operations.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

The Government of India has issued a notification dated September 29, 2016 notifying Income Computation and Disclosure Standards (hereinafter referred to as ‘**ICDS**’), thereby creating a new framework for the computation of taxable income. The ICDS became applicable from the assessment year for Fiscal 2018 and subsequent years. The adoption of ICDS is expected to significantly alter the way companies compute their taxable income, as ICDS deviates from several concepts that are followed under general accounting standards, including Indian GAAP and Ind AS. In addition, ICDS shall be applicable for the computation of income for tax purposes but shall not be applicable for the computation of income for minimum alternate tax. There can be no assurance that the adoption of ICDS will not adversely affect our business, results of operations and financial condition.

The General Anti Avoidance Rules (hereinafter referred to as ‘**GAAR**’) have been made effective from April 1, 2017. The tax consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain. If the GAAR provisions are made applicable to our Company, it may have an adverse tax impact on us.

A comprehensive national GST regime that combines taxes and levies by the Central and State Governments into a unified rate structure, which came into effect from July 1, 2017. We cannot provide any assurance as to any aspect of the tax regime following implementation of the GST. Any future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. If, as a result of a particular tax risk materializing, the tax costs associated with certain transactions are greater than anticipated, it could affect the profitability of such transactions.

In addition, unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

Any increase in taxes and levies, or the imposition of new taxes and levies in the future, could increase the cost of production and operating expenses. Taxes and other levies imposed by the central or state governments in India that affect our industry include customs duties, excise duties, sales tax, income tax and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. The central and state tax scheme in India is extensive and subject to change from time to time. Any adverse changes in any of the taxes levied by the central or state governments may adversely affect our competitive position and profitability.

40. *Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.*

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors’ reactions to developments in one country can have an adverse effect on the securities of

companies in other countries. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

There are concerns that a tightening of monetary policy in emerging markets and some developed markets will lead to a moderation in global growth. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have had the intended stabilizing effects. Any significant financial disruption in the future could have an adverse effect on our cost of funding, loan portfolio, business, future financial performance and the trading price of the Equity Shares.

41. *Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the GoI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

42. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

Further, under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee

proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

43. *Any downgrading of India's debt rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

44. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business, prospects and results of operations.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For example, the Government of India implemented a comprehensive national goods and services tax (hereinafter referred to as 'GST') regime with effect from July 1, 2017, that combined multiple taxes and levies by the Central and State Governments into a unified tax structure.

Our business and financial performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from the introduction of GST or any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations relating to GST, as it is implemented. The Government has enacted the GAAR which have come into effect from April 1, 2017.

The Government of India has announced the union budget for Fiscal 2021 and the Ministry of Finance has notified the Finance Act, 2020 (hereinafter referred to as '**Finance Act**') on March 27, 2020, pursuant to assent received from the President, and the Finance Act will come into operation with effect from July 1, 2020 There is no certainty on the impact that the Finance Act may have on our business and operations or on the industry in which we operate. We cannot predict whether any amendments made pursuant to the Finance Act would have a material adverse effect on our business, financial condition and results of operations. Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. For instance, the Supreme Court of India has, in a decision clarified the components of basic wages, which need to be considered by companies while making provident fund payments. Our Company has not made relevant provisions for the same, as on date. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations. Further, a draft of the Personal Data Protection Bill, 2019 (hereinafter referred to as '**Bill**') has been introduced before the Lok Sabha on December 11, 2019, which is currently being referred to a joint parliamentary committee by the Parliament. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects.

Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

45. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. In addition, any deterioration in

international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business.

Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

46. *We are subject to regulatory, economic, social and political uncertainties and other factors beyond our control.*

We are incorporated in India and we conduct our corporate affairs and our business in India. Consequently, our business, operations, financial performance will be affected by interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

Factors that may adversely affect the Indian economy, and hence our results of operations may include, any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;

SECTION VII – FINANCIAL INFORMATION

Independent Auditor’s Review Report on Quarterly and Half Yearly Unaudited Standalone Financial Results of the Company pursuant to Regulation 33 of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 (as amended)

To The Board of Directors of Tilak Ventures Limited

1. We have reviewed the accompanying Statement of Unaudited Standalone Financial Results of **Tilak Ventures Limited** (“the Company”) for the quarter and half year ended 30th September 2021 (“the Statement”) being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 as amended.
2. This Statement, which is the responsibility of the Company’s management and approved by the Board of Directors at their meeting held on 25th October 2021, has been prepared in accordance with recognition and measurement principles laid down in Indian Accounting Standards 34 “Interim Financial Reporting” (Ind AS 34), as prescribed under section 133 of the Companies Act, 2013 as amended, read with the relevant rules issued thereunder and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagement (SRE) 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”, issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statement is free of material misstatement. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. Based on our review of the Statement conducted as stated above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the aforesaid Indian Accounting Standards and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 as amended, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Information other than Standalone financial statements and Auditors’ report thereon

The company’s Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Standalone financial statements and our auditors’ report thereon.

Our opinion on Standalone financial statements does not cover the other information and we do not express any form of conclusion thereon.

In connection with our audit of Standalone financial statements, our responsibility is to read the other information, and in doing so, consider whether such other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's responsibility for the Standalone financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone financial statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risk of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether has adequate internal financial controls systems in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including and significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we may have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in audit of Standalone financial Statements for the financial year ended March 31, 2021 and are therefore the Key audit matters. We describe that these matters in our Auditors' report unless law and regulations precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should be not communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communications.

Other Matters

The standalone financial statements of the company for the year ended March 31, 2020 have been audited by other auditors and we have relied upon by the same.

Our opinion is not modified in respect of this matter.

ANNEXURE “2” to the Independent Auditor’s Report of Tilak Ventures Limited

(Referred to in Paragraph 2(f) under “Report on other Legal and Regulatory Requirements” of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Tilak Ventures Limited (“the Company”) as of March 31, 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required by the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting with reference to Standalone financial statements.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting with reference to these Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting with reference to these Standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company;

and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified Opinion

According to the information and explanations given to us and based on our audit, the following material weaknesses have been identified as at March 31, 2021.

- a) The Company did not have an appropriate internal control system for granting Loans. Demand and other loans given are governed by the Board policies. Considering the close monitoring of Board no appraisal, renewal, Policies, Procedure, Committee or documents have been prescribed and executed.
- b) The Company's internal control system is not commensurate to the size and scale of operation over purchase and sale of shares and inventory and for expenses incurred.

A 'material weaknesses' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

In our opinion, except for the effects / possible effects of the material weaknesses described above on the achievement of the objectives of the control criteria, the Company has maintained, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as of March 31, 2021, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Chartered Accountants of India.

We have considered the material weaknesses identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the financial statements for the year ended March 31, 2021, and the material weaknesses does not affect our opinion on the financial statements of the Company.

NOTE : 28 - Financial instruments – Fair values and risk management

A. Accounting Classification and Fair Values

Financial Assets and Liabilities :

The Company's principal financial assets include investments, trade receivables, cash and cash equivalents, loans and other financial assets. The Company's principal financial liabilities comprise of borrowings, trade payables and other financial liabilities. The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

Fair Value Hierarchy :

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

Level 1: Fair value measurement are those derived from quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2: Fair value measurements are those derived from inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level-3 : Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on the assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The following tables summarize carrying amounts of financial instruments by their categories and their levels in fair value hierarchy for each year end presented.

B. Measurement of fair values

Valuation techniques and significant unobservable inputs

Specific valuation techniques used to value financial instruments includes:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of forward foreign exchange contracts is determined using forward exchange rate at the balance sheet date.
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis.

C. Fair value Estimations

Estimated fair value disclosures of financial instruments are made in accordance with the requirements of Ind AS 107 "Financial Instruments". Fair value is defined as the amount at which the instrument could be exchanged in a current transaction between knowledgeable willing parties in a arm's length transaction other than in forced or liquidation sale. As no readily available market exists for a large part of the Company's Financial instruments, judgement is necessary in arriving at fair value, based on current economic conditions and specific risk attributable to the instrument. The

estimates presented herein are not necessarily indicative of the amount the Company could realise in a market exchange from the sale of its full holding or a particular instrument.

Dividend/Interest-bearing investments

Fair value is calculate based on discounted expected future principles and interest cash flows. The carrying amount on the Company's investment are valued at fair value on the basis of fair market rate with reference to the investment with similar credit risk level and maturity period at the reporting date.

There are no transfers between level 1 and level 2 during the year.

b) Significant accounting judgement, estimates and assumptions

Future results could differ due to these estimates and differences between the actual results and the estimates are recognised in the periods in which the results are known / materialised. Estimates and underlying assumptions are reviewed on an ongoing basis.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based on its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Significant Estimates and assumptions are required in particular for:

Impairment of Non Financial Asset :

Determining whether property, plant and equipment and intangible assets are impaired requires an estimation of the value in use of the relevant cash generating units. The value in use calculation is based on a Discounted Cash Flow model over the estimated useful life of the underlying assets or cash generating units. Further, the cash flow projections are based on estimates and assumptions relating to expected revenues, operational performance of the assets, market prices of related products or services, inflation, terminal value etc. which are considered reasonable by the management.

Taxes

The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. Significant management judgement is also required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies, including estimates of temporary differences reversing on account of available benefits from the Income Tax Act, 1961.

c) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

3. Summary of Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated. The Company follows the mercantile system of accounting and recognizes income and expenditure on an accrual basis.

Cash And Cash Equivalents

Cash comprises cash on hand and demand deposit with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash on hand, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Property, plant and equipment

The Company has elected to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost in accordance with the exemption provided under IND AS 101.

Plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any such cost includes the cost of replacing part of the plant and equipment and borrowing its for long-term construction projects if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

Depreciation on property, plant and equipment is calculated on a WDV basis using the rates arrived at based on the useful lives estimated by the management which coincides with the rates as per Schedule II of the Companies Act, 2013. The useful life of major computer is 3 years.

Revenue Recognition

The Company has adopted Ind AS 115, Revenue from Contracts with Customers, with effect from 01 April 2018. The Company has applied the following accounting policy for revenue recognition:

Revenue from contracts with customers:

The Company recognises revenue from contracts with customers based on a five step model as set out in Ind AS 115:

Step 1. Identify the contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2. Identify the performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3. Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties

Step 4. Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company will allocate the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5. Recognise revenue when (or as) the entity satisfies a performance obligation.

The Company satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met: 1. The customer simultaneously receives and consumes the benefits provided by the Company's performance as the Company performs; or 2. The Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or 3. The Company's performance does not create an asset with an alternative use to the Group and the entity has an enforceable right to payment for performance completed to date. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment. The Company assesses its revenue arrangements against specific criteria to determine if it is acting as principal or agent. The Company has concluded that it is acting as a principal in all of its revenue arrangements. As per the underlying construction contracts in force, the Company bears certain indirect tax as its own expense, and is effectively acting as principals and collecting the indirect taxes on their own account. Accordingly, revenue from operations is presented as gross of such indirect taxes.

(I) Sales

- (i) Sales are recognised when significant risks and rewards are transferred to the buyer as per the contractual terms or on dispatch where such dispatch coincides with transfer of significant risks and rewards to the buyer.
- (ii) Interest income on financial asset is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instruments.

(II) Other Income

Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the group, and the amount of the dividend can be measured reliably.

Inventories Valuation

- (i) Cost of Materials, components, stores & spares and packing material is arrived at Weighted Average Cost and Cost of goods purchased
- (ii) Scrap is valued at net realisable value.

Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Borrowing Cost

- (i) Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.
- (ii) Borrowings are classified as current financial liabilities unless the group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

Investments

All equity instruments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the company may make an irrevocable election to present

in other comprehensive income subsequent changes in the fair value. The company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cashgenerating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset. Unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss.

Employee Benefit

- (i) Short term employee benefits are recognised as an expense at the undiscounted amounts in the Statement of Profit & Loss for the year in which the related service is rendered .
- (ii) The Company does not provide for retirement benefits. The same are payable as and when due.

Segment Report

- (i) The company identifies primary segment based on the dominant source, nature of risks and returns and the internal organization and management structure. The operating segment are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance.
- (ii) The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate.

Leases

The Company has no leases or any contractcontaining lease accordingly, no disclosure has been made on the same.

Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining

the Company's earnings per share is the net profit for the period. The weighted average number equity shares outstanding during the period and all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit of loss for the period attributable to equity shareholders and the weighted average number of share outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

Taxation

- (i) The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for the jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, to unused tax losses and unabsorbed depreciation. Current and deferred tax is recognized in the Statement of Profit and Loss except to the extent it relates to items recognized directly in equity or other comprehensive income, in which case it is recognized in equity or other comprehensive income.
- (ii) Provision for Income tax is made on the basis of the estimated taxable income for the current accounting period in accordance with the Income- tax Act, 1961 and Revised Income Computation and Disclosure Standards (ICDS) of the Income-tax Act, 1961.
- (iii) Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction. affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Impairment of Assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the management estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the assets belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed , and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

Provisions and Contingent Liabilities

The Company creates a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Operating Cycle

Based on the nature of products/activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non current.

Financial Instruments

(I) Financial Assets

(i) Initial recognition and measurement

All financial assets and liabilities are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Purchase and sale of financial assets are recognised using trade date accounting.

(ii) Subsequent measurement

(a) Financial assets carried at amortised cost (AC): A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(b) Financial assets at fair value through other comprehensive income (FVTOCI): A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(c) Financial assets at fair value through profit or loss (FVTPL): A financial asset which is not classified in any of the above categories are measured at FVTPL.

(iii) Impairment of financial assets

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- (a) The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- (b) Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

For trade receivables Company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the Company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

(II) Financial Liabilities

(i) Initial recognition and measurement

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

(ii) Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Loans and borrowings

This is the category most relevant to the company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are de-recognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the standalone balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

There are two routes through which foreign investors may invest in India. One is the ‘automatic route’, where no government approval is required under Indian foreign exchange laws to make an investment as long as it is within prescribed thresholds for the relevant sector. The other route is the “government route”, where an approval is required under foreign exchange laws from the relevant industry regulator, prior to the investment.

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise way such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (**‘FDI Circular 2020’**), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that:

1. The activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI (SAST) Regulations;
2. The non- resident shareholding is within the sectoral limits under the FDI Policy; and
3. The pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid to make any investment in the Issue.

The Lead Manager to the Issue and our Company will not be responsible for any allotments made by relying on such approvals. Please also note that pursuant to Circular no. 14 dated September 16, 2003, issued by RBI, Overseas Corporate Bodies have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for this issue as a incorporated non-resident must do so in accordance with the FDI Circular 2020 and Foreign Exchange Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to

have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.

The above information is given for the benefit of the Applicants / Investors. Our Company and the Lead Manager to the Issue are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Draft Letter of Offer.
